tionally wary. Contains Eastern cutthroat and a few rainbow trout. 10½ inches common through summer. No camping sites or feed. Lake stocked with cutthroat.

**LOVENIA, X-4.** 2 miles on trail over summit from Trial Lake. Lake in timberline country, contains Eastern brook up to 12½ inches. Natural reproduction. Inlet has brooks. Camping places and feed. 3 acres, elevation 10,000 feet, maximum depth 11 feet, average depth 8.5 feet, excellent fly fishing. Brook trout and cutthroat present. Stocked with brook trout.

**MEADOW RESERVOIR, X-11.** Artificial lake with a dam. Maximum depth 46 feet, average depth 15 feet, elevation 9,800 feet, 34 acres. Trail to Ibantik Lake then 1 mile on poor trail past several small holes. Lake sits in heavy timber, is hard to find. Fair fishing for cutthroat trout to 14½ inches. No campsites. Only marginal horse trails. Fishing better later in season. Also known as Seymour Lake. Level fluctuates 15 feet.

**NEIL, X-12.** West of Meadow Reservoir. 2 miles in rough-timbered country. Poorly marked trail. 3 acres, maximum depth 17 feet, average depth 10 feet.
